

Building a World of Sustainable Communities

BC HYDRO'S SMART METERING & INFRASTRUCTURE PROGRAM

Corix Utilities has been selected for the installation portion of BC Hydro's Smart Metering Program. In preparation for this program, Corix is planning to fill over 350 positions and buy a wide variety of products and services. This summer, smart meter installations will begin throughout BC Hydro's service territory. Smart meters will be installed in all homes and businesses by December 2012. Preparation and staging work for meter installation is underway.

EMPLOYMENT OPPORTUNITIES FOR FIRST NATIONS

We are currently accepting resumes for a variety of job opportunities, including: Field Technicians, Call Centre Representatives, Certified Electricians, Administrative Assistants, Field Supervisors, Safety Representatives and Warehouse Representatives. Please forward your resume by:

Please note that active recruitment will begin in March 2011 for most positions and will continue throughout the year in a phased approach. For more information, please visit www.corix.com.

SUPPLIER OPPORTUNITIES FOR FIRST NATIONS

Corix believes good business partnerships are about balancing corporate, social and environmental responsibility, as well as ensuring prosperity for both partners. Corix will be buying a wide variety of products and services for the Smart Metering Program. For information about opportunities to become a supplier, please contact Francois Desmarais, Corix Utilities, at 778-879-0509 or francois.desmarais@corix.com.

COMMITMENT TO COMMUNITY AND PARTNERING WITH FIRST NATIONS

Corix aims to be a caring partner in the communities where we live and work, helping to build safe, long-term utility infrastructure solutions that improve service, cut costs, and increase efficiencies. We translate our values into action, employing local people and collaborating with organizations that share our people-first ideals.

Corix has partnered with Doyon Utilities in Alaska, a subsidiary of Doyon Limited, the Native regional corporation for Interior Alaska. Established under the 1971 Alaska Native Claims Settlement Act (ANCSA), Doyon is the largest private landowner in Alaska, with more than 12.5 million acres allocated to the corporation under ANCSA. Doyon Utilities owns and operates the utility infrastructure that provides service to the military facilities on the three Army Posts in Alaska, operating a total of 12 utility systems at Fort Wainwright, Fort Richardson, and Fort Greely.

In Kamloops, BC, Corix provides multi-utility services - including geothermal - for the community of Sun Rivers, a highly showcased land lease development for the Tk'emlups Indian Band.

THE CORIX GROUP OF COMPANIES

Each day, in communities across North America, Corix leverages more than 70 years experience to deliver a complete range of safe, reliable and cost-effective utility infrastructure solutions for water, wastewater and sustainable energy. Our team undertakes countless utility-related tasks, from supplying water pipes to installing "smart" meters to designing and building safe, efficient multi-utility systems. Our "one-stop shop" approach allows us to deliver comprehensive, flexible and innovative solutions to our customer's most complex utility infrastructure challenges. We deliver safe, cost-effective and sustainable utility infrastructure solutions to clients across North America, including municipalities, First Nations, universities, the US Army, resort properties, gas, water and electric utilities, industrial groups, and developers.
