

# Mammograms in May

The BC Cancer Mobile Mammogram service is coming to KNC

**When: May 18, 2023**

By appointment only

(There are over 40 appointment slots)

To book, call the Ktunaxa Health clinic  
**250-420-2700**

Or email [Bgroff@ktunaxa.org](mailto:Bgroff@ktunaxa.org)

## ***Who can book an appointment?***

Screening is being offered for anyone with breasts, who identify as Indigenous or work for Ktunaxa Nation or one of the four communities, or are a patient of the Ktunaxa Health clinic.

The mobile Breast Screening Program uses bilateral mammography (x-ray of the breast).

Women ages 40-74 may self-refer to the program. It is recommended for most women over 40 to have a Mammogram every two years.

(Don't screen if you've had breast cancer or breast implants, or if you currently have breast symptoms requiring a diagnostic investigation. Speak with your health care provider, who may refer you for a diagnostic mammogram.)

Please reach out if you have any questions.

**Brittany Groff - [bgroff@ktunaxa.org](mailto:bgroff@ktunaxa.org)**

## **Can't make this date?**

Self-refer to a local Clinic
