2014 CAMA Youth Panel

The theme of the 2014 Youth Panel is *Building Certainty, Maximizing Community Resources*. Youth will have the opportunity to discuss their thoughts and insights into the role the mining industry can play in building stronger communities. Since it started in 2009, the Youth Panel has been a highlight of the CAMA Conference.

"Being a part of the youth panel was a very empowering experience, as CAMA and Teck afforded me the opportunity to collaborate with fellow Aboriginal youth from different regions of the country to speak to industry leaders about our culture, experience, views and share our ideas on how we can make the mining sector a more supportive industry for our people and communities."
