

## Environmental Skills Training Course

Nupqu Development Corporation is excited to conduct our 2019 Environmental Skills Training Course. This course will run from May 6th-25th in Cranbrook, BC and is fully funded through Nupqu for every participant. This training program offers students industry certifications in: OFA-Level 1, electrofishing, and Swift Water Rescue certificates just to name a few. This 3 week course also places a focus on relevant field related activities including: water sampling, forestry field skills, plant identification, and fisheries sampling providing students a mix of both classroom learning and field based applications.

We are currently accepting applicants to join us for this unique and exciting opportunity, students will have the opportunity to get out on the land while learning skills that are used everyday in the environmental field. Applicants are encouraged to apply through our Human Resources Manager “Pamela Way” at the email address [hr@nupqu.com](mailto:hr@nupqu.com). Within the email please provide your full name and contact information including Environmental Skills Training Course in the subject line.
