

?amak?is KTUNAXA stewardship PLANNING

**“?amak?is Ktunaxa
defines who we are.”**

Land stewardship planning is
about making a plan to take
care of the land.

Land stewardship planning is a
tool that can be used to identify
how land, resources and ?a·kxam'is
q'api qapsin (All Living Things) can
be taken care of and protected for
future generations.

Engagement with Ktunaxa First
Nations is deeply rooted throughout
the planning process.

Engagement begins with meaningful
conversations about a vision or dream
for the future state of the land.

Take care of the land and the land
will take care of you.

“What does Ktunaxa Stewardship mean to you?”
